

# Richard Kalab

---

Senior Frontend Architect | Lead Angular Engineer | Enterprise Consultant

## Professional Summary

Senior Frontend Architect and Lead Developer with 18+ years of experience delivering enterprise-grade web applications, cloud platforms, fintech systems, healthcare solutions, automotive platforms and high-traffic internet services. Specialized in Angular, TypeScript and scalable frontend architecture.

Experienced in leading frontend teams, mentoring developers, defining engineering standards and collaborating directly with business stakeholders. Frequently engaged to modernize existing systems, reduce technical debt, improve architecture and establish scalable engineering practices.

Successfully delivered projects as a developer, technical lead, architect, consultant and freelancer across both enterprise organizations and startup environments. Experienced working with international distributed teams, including US-based engineering organizations, European enterprise clients and multinational consulting environments.
